

Image Scanning

Printergy images film and pictures products. We are equipped to do a few or few thousands into graphic formats such as “.JPG”. We image items in color, grey scale or Black & White and up to 12” x 18” in size without stitching. With larger images, with use digital photography.

Please specify if Standard Definition (SD) or High definition (HD) scans are desired. Large screen LCD TV sets require high DPI scan and HD video rendering to avoid pixelization.

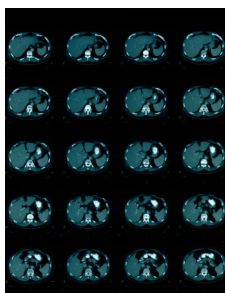

Optionally, **Photoshop** cleanup & restoration is available.

Historical documents can be gently scanned on flat bed scanner will books are scanned in a book scanner.

Framed pictures, citations and awards can be scanned. If the frame prevents good results, we can use a digital camera.

35 Film negatives & panoramic 35 mm, x-ray's and roll microfilm and microfiche can also be imaged.
